

## Uni-Bio Science Officially Launches New Version of Its Corporate Website and IR WeChat Platform

\* \* \* \*

### *Adds New Content and Functions to Enhance User Experience*

(Hong Kong, 3 June 2016) **Uni-Bio Science Group Limited** (“Uni-Bio Science” or the “Group”; HKEx code: 690) has announced the official launch of the new version of its corporate website (<http://www.uni-bioscience.com>) and the new IR Wechat platform.

The new version of the corporate website not only features more in-depth information about the Group and thereby delivers an enhanced and more comprehensive user experience, but also provides customers and investors with a better means of keeping abreast of the Group’s major developments as well as emerging trends. Apart from the adoption of a highly sophisticated interface, the new version of website is highly user friendly and more interactive. It offers a crisper, more effective and powerful medium for presenting information, including corporate news. The newly-added “Our Work” page further enhances the transparency of the Group’s operations by detailing its marketed products and new products in the pipeline, as well as providing information about its partners. Under the “Investors” page, users can analyse the Group’s key financial and business data by employing interactive analysis tools, while “IR Calendar” ensures that they are kept up-to-date with the Group’s upcoming events or events that it will participate in. Furthermore, “Email Subscription Center” allows them to closely follow the Group’s latest developments by receiving its published information, ranging from annual reports and interim reports to general announcements, all via email.

The new IR WeChat platform is a verified WeChat official account. Timely information about the Group can be found on the platform through “Uni-Bio Update” (聯康動態) while the newly-added “Stock Price Quote” (股價資訊) and the “IR Calendar” (投資者活動) keep followers posted about the Group’s stock price and investor relations events. Through this WeChat platform, Uni-Bio Science can maintain seamless communications with investors and other followers no matter where they are through their mobile devices.

**Mr Kingsley Leung, Executive Director of Uni-Bio Science**, said, *“In the past two years, we have endeavoured to enhance our corporate culture and business operations so that they are more closely aligned with international standards. The launch of the new version of our website and the IR WeChat platform represent our strategic initiative to showcase the Group’s brand new image and to demonstrate our spirit of ‘Leading Genuine Innovation’.”*
